

Manufacturer, Suppliers and Exporters of
All Type of Industrial Heaters, Heating Electrodes, Thermocouples &
Packaging Machine Spares

Formerly Known as Prachi Engg. Services

PRACHI HEATERS

Industrial Heaters

Ceramic & Mica Band Heaters

Features: Injection/Blow Molding Machines,
Drum Heating

Application: Flexible Design,
Energy Efficiency, Long Life Span

High & Low Density Cartridge Heaters

Features: High Watt Density, Efficient
Heat Transfer, Customizable

Application: Plastic Injection Molding,
Medical Devices, Aerospace and
Automotive Industries

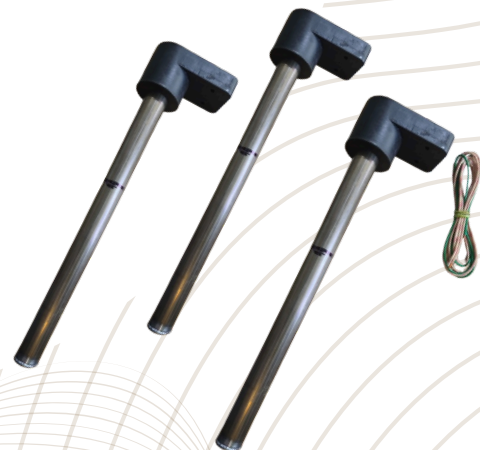

Porcelain Heater

Features: Rapid Heating, Electrical
Insulation, Low Maintenance

Application: Pharmaceuticals and
Chemicals

Pocket Heaters

Nozzle & Coil Heaters

Features: Compact Design, Fast
Heating, Durability

Application: Hot Runner Systems

Features: Corrosion resistant
Titanium and SS material

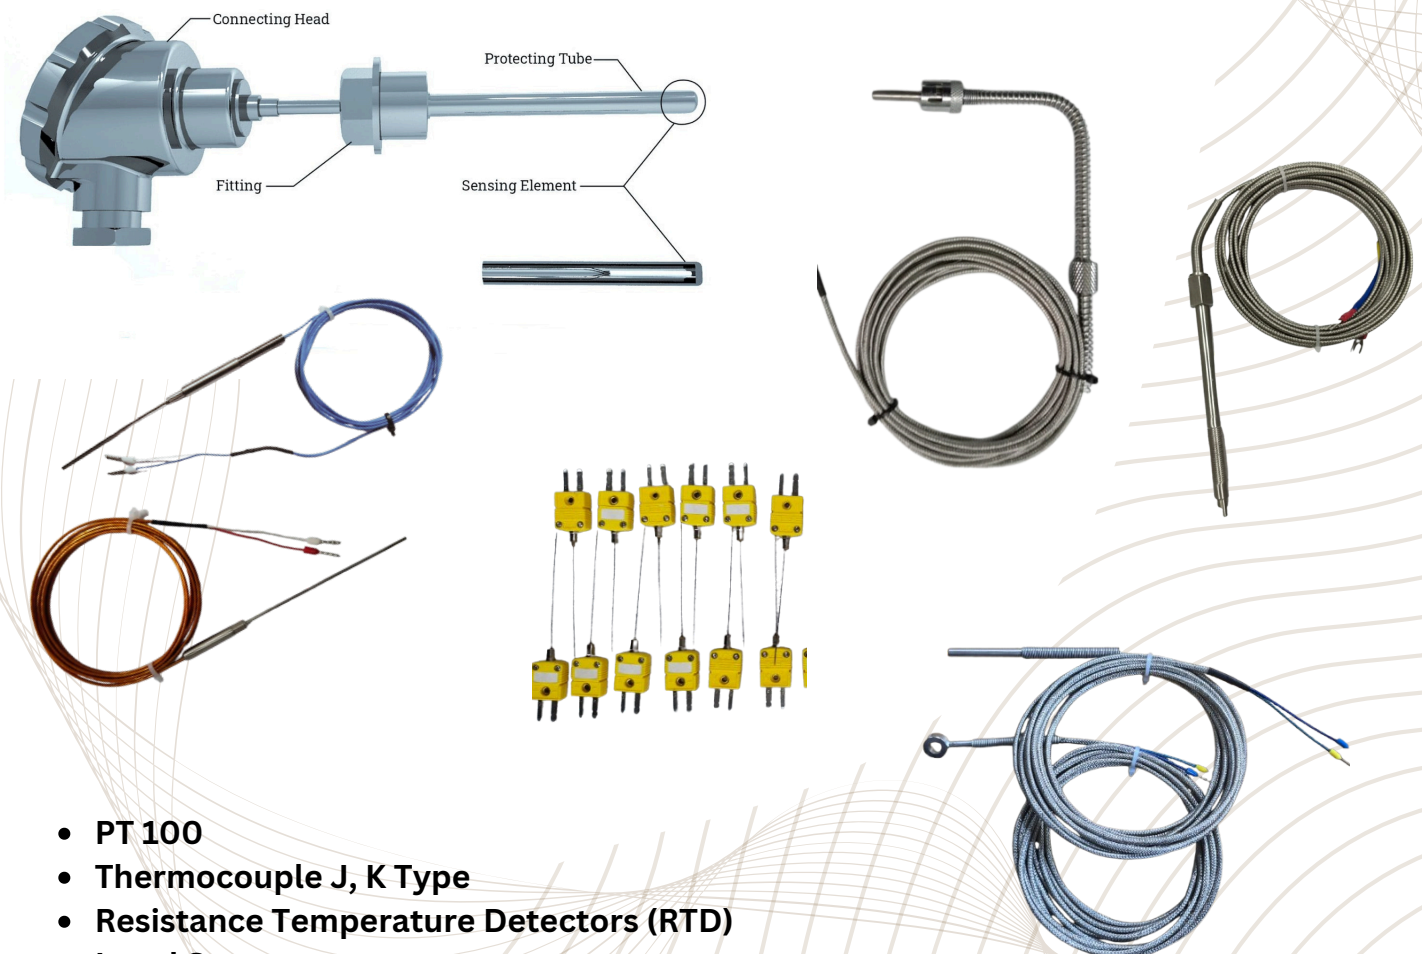

Application: Chemical Industries

Tubular Heater

Features: Customizable Design,
Corrosion-Resistant and Durable
Application: Corrugation, Plastic,
Rubber Industry, Air Heating, Moulding
and Extrusion

Thermocouple, RTD Sensors

- PT 100
- Thermocouple J, K Type
- Resistance Temperature Detectors (RTD)
- Level Sensor

Packaging Machine Spares

- Band Sealing Electrodes
- Band Type Cutters
- Horizontal Electrodes for CMD machine
- Horizontal Round Electrodes
- Vertical Electrodes

- Horizontal Extruded Electrodes T Type
- Horizontal Triangular Electrodes
- Syndania Strip
- Silicon Rubber Strip
- PTFE Teflon Tapes
